The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3 and 5-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stark (5,330,778 or 5,021,248 or 5,145,702) for reasons of record.

Applicant argues that Stark does not disclose a matrix of sugar crystals and sugar glass in an amount effective to provide a coating with sufficient structural integrity to prevent flowability at 40C. This has been considered but is not persuasive. In method2, example 17 of Stark, the reduced fat frosting formulation includes a combination of crystalline 10X sugar and corn syrup. Cocoa butter is not included in the composition. Although the flowability point of the frosting is not mentioned, one of ordinary skill in the art would not expect the frosting of Stark to be flowable at 40C. No unobvious difference is seen between the combination of sugar and corn syrup in Stark and the combination of crystal sugar and sugar glass of the claims.

Claims 2-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stark as applied to claims 1 and 5-20 above, and further in view of Singer for reasons of record.

Applicant arguments are directed to the rejection of the claims, based upon the primary references and so no arguments need to be addressed for this rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
